2008, 2009 and 2010 FIA World Rally Championship – Pirelli Tyres

Information sheet for the competitors

All competitors are obliged to sign a supply agreement with Pirelli. Two opportunities are offered by Pirelli:

a) The season supply agreement

b) The event supply agreement

In both cases Pirelli offer to competitors the opportunity to enter into a separate Promotional Package Agreement (information available from Pirelli).

These standard agreements between Pirelli and the competitors have been approved by the FIA so that full compliance with the principle of sporting equality and fair treatment of all competitors is ensured. Pirelli is obliged to treat all competitors equally with respect to anything which affects the performance of tyres, with respect to the terms on which tyres are supplied or to the types of tyres supplied, and with respect to support, access and information made available to competitors.

No modifications to either of these standard supply agreements will be possible unless previously approved by the FIA.

Competitors shall remain entirely free to choose which agreement and also entirely free choose whether to accept Pirelli's standard promotional package. The promotional package provides for certain awards to be made to competitors.

Tyres for the events

In order to obtain the tyres in sufficient quantities and in a timely manner for each event, the competitors shall order the tyres needed respecting the conditions set out in the relevant agreement terms and conditions.

The tyres will be made available to the competitors starting from 9 a.m. on the day before scrutineering.

The tyres supplied for the events will be leased by Pirelli. All such tyres, whether used or not, shall be returned to Pirelli at the end of each event. Unused tyres will not be invoiced.

The costs of the tyres are given on the attached pricelist.

Tyres for testing

The tyres supplied for testing will be sold by Pirelli. In order to obtain the tyres for testing, the competitors shall execute the payment in accordance with the terms and conditions of the appropriate agreement.

A maximum of 26 tyres per event will be allowed for testing.
