The route of the 2009 Rally d'Italia Sardegna with Google – Earth

A new feature of the 2009 edition of Rally d'Italia Sardegna is the introduction in the Spectators' guide of the aerial maps of the route. To access the maps just download the Google Earth application, open the home page of the www.rallyitaliasardegna.com website and click on the Spectators' Menu the link Spectators' Guide – Aerial Maps.

A preview which will bring spectators and rally people directly on Sardinia's special stages.

The Google Maps technology will provide a valuable support to spectators to choose and identify the areas where to watch the Rally. The Special Stage start, finish and spectators' areas described in the guide will be marked on the maps.

Thanks to the Google Maps technology, it will be possible to have an aerial run over the SS, a sort of birds' eye view which will enable fans to realise the main attractions on the rally route.
