2. after about 10 km turn right onto SP38bis, still in the direction of Tempio.
3. after another 4.5km leave the car close to the junction on the right for Olbia on SP 38 and continue on foot in the direction of Olbia for about 1.3 km.

Notes:

Good access road and plenty of parking place available in the last part along SP38.

The access road leads to the Light Service area and after a few hundred meters to the initial part of the Shakedown, mainly uphill, with different kinds of bends, some hairpins and also quite narrow road with solid ground.

Good choice of sections which can be seen in safety and with good visibility.

Attention:

Access to the public directly from Olbia along the Provincial Road SP38 will be forbidden because the part after the junction for Via della Cantoniera Putzolu will be reserved for rally cars heading towards the Shakedown start.

If by mistake you have taken SP38 directly from Olbia, we suggest that you turn left onto Via della Cantoniera Putzolu and then continue for about 5km in the direction of Putzolu until you reach SS127, to be followed in the direction of Tempio, as per the suggested access road.

2. after 10 km turn right on to the Provincial Road SP38bis, still in the direction of Tempio,
3. after about 5 km turn right in the direction of Austinacciu on a road that is at first tarmac and then gravel, and continue following the signs posted by the organisation.

Note:

The gravel access road is quite narrow, it is therefore not advisable for wide vehicles like campers and caravans.

The access road leads to an interesting and well visible T junction preceded by a short straight.

Walking in the opposite direction of the Stage there are a couple of wide fast uphill curves, which are well visible in perfect safety thanks to a sort of natural arena.

Walking from the junction in the direction of the Stage leads to the final straight.
